Subject:	Re: Conference call with JS/PC and a letter from GNPC

Dear Gabriel
Sorry for my late reply.
I've tried to clarify to myself the situation following the teleconference.
I highly respect President Yao, JS and you and assume all of us are interested in finding a way to move forward if reality gives JS a genuinely promising opportunity.
However, my judgment is that with the many subtleties of such a deal there are only two ways to know the answer:
1) A compact delegation of JS/PC coming soon to Accra to sit down with the proper Authorities, looking into the Data Room and making first hand judgments on the opportunity.
2) You, Gabriel, have a meeting with Steve or both of us in Istanbul.

Please let me know if anyone of the two works for JS/you.

If the answer is None,
I assume we all can depart in a friendly manner and on our side EB/SM we could look for other partners.

Dear Gabriel, please let me know and please send my best regards and deep appreciation to President Yao.

Yours sincerely
Ehud Barak

>> We organized a call involving China Comservice, Sinopec Jiangsu Oilfield (Ghana), Steve M and Mr Aryeetey. The latter is the COO of Exploco from the Ministry of Petroleum.
>>
>> From China Comservice, we had President Yao, myself and 2 others. The participant from Sinopec is Mr. Dong Zhengyong.

>>
>> Per our call with Mr. Aryeetey, we understand the situation as follows:
>> 1. The pipeline project is a huge plan but not ready for implementation. We need to start from the beginning: early design research, offshore drilling plans, subsea pipeline construction considerations, onshore personnel training etc. We expect a consideration amount of time and effort have to be spent to prepare for this project. This is apart from any financial consideration which is also expected to a big number;
>>
>> 2. As far as the technical requirements for this project, we only have the oil/gas reserves and ancillary data. The other relevant data remains to be provided;
>>
>> 3. A key consideration for the success of this pipeline is the financing from Chinese institutions. We are ready to bring in China Development Bank or EXIM to evaluate this project.
>>
>> Sinopec has requested that Mssers Steve and Aryeetey provide us with the feasibility study report, the preliminary planning etc, in order to further evaluate the project.
>>
>> Finally, on behalf of China Comservice, we would like to wish you and family a Happy Rosh Hashanah. Shanah Tova!
